Note for record: Letter, 15 Aug, from Lt. Johnson reads, as follows: "For what it may be worth, I should like to call your attention to a Russian film which I saw last night at the Stanley Theatre in New York, entitled "August 14th." I am enclosing a program leaflet. This color film shows photographs of numerous newly-constructed factories, steel mills, rolling mills, hydro-electric plants, gas storage plants, machine tool works, and bauxite mines. These photographs were taken on August 14, 1947, by Soviet cameramen, according to the program sheet."
